

PRESENTING NEXT GEN AIR PURIFIERS

ALL NEW MEDI-PURE[®]

Welcome the multi-talented MEDI-PURE with HEPA PURE VIRAL GUARD & 7 stages a state-of-the-art air purifier with odor sensor (for odor) and filter change indicator that helps keep indoor air free from dust (PM2.5, PM10), gases, smoke, bad odor, allergens and air-borne infectants. It has 7-stage air purification technology that includes Pre-filter, Anti-bacterial filter, H13 grade HEPA filter, Activated Carbon filter, Photo catalyst filter, Ultra Violet tube and Ionizer. Ideal for homes, hospitals, ICU, OT and doctors' chambers, it has a remote control and can be operated in Manual, Timer and Sleep modes.

Medi-Pure is very effective in combating air pollution in medical application, allergy and air borne infections. The higher availability of fresh air helps enhance activity, health and memory levels in children. Besides making the environment and surrounding air fresh and pure, it generates 3.8 million negative ions per cubic meter. Negative ions are found near waterfalls, mountains and green areas like forests that keep you fresh and vitalize your mind and body.

iCLUSTERTM TECHNOLOGY

Intelligent + Multi-Stage Synchronized Filtration Technology

iClusterTM Technology is Atlanta Healthcare's unique air purification state-of-art technology which focuses on eradicating various pollutants present in the environment. There are various pollutants in the air that impact human health varying from gases, particulates, bacteria, virus, smell, smoke and other harmful suspended particles. A single filtration technology cannot eradicate all pollutants in the air. For effective purification, multi-stage filtration technologies need to work in tandem. Atlanta Healthcare's iClusterTM Technology provides relief from pollutants in totality, using synchronized multi-stage intelligent filtration to provide pure air.

Full Range Purification

Efficiently purifies toxic air pollutants (formaldehyde, benzene, ammonia, VOC, etc.), removes odours, dust, bacteria, viruses, mold, chemical fumes, smoke & other contaminants.

RECOMMENDED USE/BENEFITS

Based on a radically new approach to air purifier design, MediPure features ultra-quiet air intake technology ideal for medical and clinical environments.

- ICU, Doctor Chamber, Small OT, Dentistry, Patient Waiting Area, OPD Hall, Diagnostic Lab
- Indoor spaces requiring clean, odor free, infection-free environments
- A single unit is effective up to 300 sq. ft. of enclosed space

SALIENT FEATURES

Ultra silent operations: With advanced ultra-silent motors, this unit is as quiet as it can get

Plug & play operation | Multi-mode operations: Lets you choose from manual, timer or sleep modes

Easily portable: Only 4.8 Kg, the unit is easy to move around with a nudge

Full feature remote control: So that you can operate it at your comfort

Technical Specifications

Air Flow
225 m³/hr

CADR
170 m³/hr

Coverage Area
300 sq.ft.

Specifications

Voltage	220 V
Power Consumption	43 W
Min Noise level	35 db
Max Noise level	45 db
Timers	1 to 12 hours and Manual
HEPA Filter size	286 x 318 x 20 mm
Activated Carbon Filter size	286 x 318 x 15 mm

Additional Features

Advanced filtration technology
Multi-mode operations
Auto re-start in case of power failure
LED display
Plug & play operation
Sleep mode
Odor Sensor
Filter Change Indicator
Remote control

Filters

Number of Filters	5
Pre Filter	YES (Washable)
HEPA Filter H-13	YES
Activated Carbon Filter	YES
Other Filters / Purification Technology	1. Anti-Bacterial Filter 2. Photo Catalyst Filter 3. UV light 4. Ionizer

DIMENSIONS

Product Weight
Dimensions

4.8 Kg
330 x 180 x 500 mm

1 Year
Warranty
excluding consumables
